

## ANADARKO ANNOUNCES 2017 INITIAL CAPITAL PROGRAM AND GUIDANCE

HOUSTON, March 7, 2017 /PRNewswire/ -- Anadarko Petroleum Corporation (NYSE: APC) today announced its 2017 initial capital expectations and guidance. The company will also host an investor conference call tomorrow to discuss recent updates and expectations, including:

### HIGHLIGHTS

- Announced 2017 initial capital program of \$4.5 to \$4.7 billion<sup>(1)</sup>
- Increased Wolfcamp A (**Delaware** Basin) net resources by 50 percent to more than 3 billion BOE
- Increased DJ Basin development area net resources by 33 percent to more than 2 billion BOE
- Improved margins per barrel significantly as a result of higher oil-production mix
- Completed Eagleford divestiture increasing cash on hand as of March 3 to more than \$5 billion
- Expected 25-percent increase in oil sales volumes in 2017 relative to the prior year<sup>(2)</sup>

"Our 2017 initial capital program is designed to leverage our streamlined portfolio and sharpened focus on higher-margin oil production, which is expected to generate stronger returns and substantial cash flow to fund material growth over the next five years," said Al Walker, Anadarko Chairman, President and CEO. "With a growing lower-risk resource base of more than 6.5 billion BOE (barrels of oil equivalent) in our premier U.S. focus areas of the **Delaware** and DJ basins, and the deepwater **Gulf of Mexico**, I believe Anadarko is poised to deliver exceptional value in 2017 and well beyond.

"In 2017, we plan to allocate approximately 80 percent of our total capital program toward our U.S. onshore upstream and midstream activities, and our expanded position in the deepwater **Gulf of Mexico**," added Walker. "These investments provide the foundation for our increased five-year oil growth expectations of more than 15 percent on a compounded annual basis at current prices, and we are prepared to be flexible throughout the year if we see the opportunity in the **Delaware** and DJ basins to accelerate activity to capture additional value. Furthermore, sustained oil production from our deepwater **Gulf of Mexico**, **Algeria** and **Ghana** assets is expected to generate significant free cash flow to support growth and fund future value creation through exploration success and our LNG business."

### 2017 Initial Capital Expectations (\$4.5 - \$4.7 Billion)<sup>(1)</sup>

**By Area**

*Billions*

**By Type**

U.S. Onshore	\$ 1.9	U.S. Focus Areas*	80 %
Deepwater & Int'l. Operations	1.1	Int'l. Cash Generation**	2 %
Deepwater & Int'l. Exploration/LNG	0.8	Future Upside (Exploration & LNG)	15 %
Midstream	0.6	Corporate	3 %

*Note: All amounts are approximates.*

\* U.S. onshore upstream and midstream, and deepwater Gulf of Mexico

\*\* Algeria and Ghana operations

### Initial Sales-Volume Expectations<sup>(2)</sup>

	<u>2017 Initial Expectations</u>	<u>2016</u>
Total (MMBOE)	235 – 239	210
Oil (MBOPD)	357 – 362	287

#### U.S. ONSHORE

During 2016, Anadarko high-graded its U.S. onshore portfolio by divesting a number of natural-gas-weighted assets and concentrating its top-tier positions in the **Delaware** and DJ basins, which resulted in an expected 25-percent increase in liquids composition from the U.S. onshore relative to 2015 on a same-store-sales basis.<sup>(2)</sup>

In the **Delaware** Basin in **West Texas**, Anadarko increased its estimated net resources in the Wolfcamp A formation by about 50 percent to more than 3 billion BOE of net resources. In addition, the company estimates it has more than 1 billion BOE of incremental potential upside on its acreage in the Wolfcamp B, C and D formations, the Bone Spring, and Avalon Shale opportunities. In 2017, the company plans to invest approximately \$820 million in **Delaware** Basin upstream activities, with an additional \$560 million of Anadarko capital allocated toward the expansion of its midstream backbone to enable future growth. Anadarko plans to average 10 to 14 operated drilling rigs during the year and drill more than 150 operated mid-lateral-equivalent wells.

In the DJ Basin of northeast **Colorado**, Anadarko increased its estimated net resources by about 33 percent as a result of improved recoveries and additional down-spacing opportunities. The company now estimates it has more than 2 billion BOE of net resources within its development area, with additional upside on its acreage in the greater DJ Basin. In 2017, Anadarko plans to invest approximately \$840 million in DJ Basin upstream activities, average five to six operated rigs and drill approximately 290 mid-lateral-equivalent wells.

"We expect our current 2017 U.S. onshore capital allocation to deliver significant oil growth toward the end of the year as we overcome the effects of last year's reduced activity levels on our shorter-cycle onshore opportunities," added Walker. "We anticipate achieving an exit rate of approximately 50,000 barrels of oil per day in the **Delaware** Basin, which is more than 80-percent higher than 2016, and in the DJ Basin, we expect our oil-production exit rate to be about

100,000 barrels per day, a 30-percent increase over the prior year."

## **DEEPWATER & INTERNATIONAL OPERATIONS**

In 2017, Anadarko expects to invest approximately \$1.1 billion in its deepwater **Gulf of Mexico**, **Algeria** and **Ghana** assets.

In the **Gulf of Mexico**, the company plans to continue leveraging its premier infrastructure position and drill approximately seven development tiebacks during the year. In addition, Anadarko expects to benefit from a full year of production from the recently acquired Freeport-McMoRan properties, which doubled Anadarko's sales volumes to more than 160,000 BOE per day at the end of last year. Minimal capital investments are expected to be required in 2017 to maintain the steady, long-lived, high-margin oil production provided by the company's strong cash-generating assets in **Algeria** and offshore **Ghana**.

## **DEEPWATER & INTERNATIONAL EXPLORATION AND LNG**

Exploration and LNG development continue to be differentiating components of Anadarko's business. In 2017, the company expects to invest approximately \$770 million in its deepwater and international exploration program and LNG project in **Mozambique**.

During the year, Anadarko plans to drill up to 10 exploration/appraisal wells in the deepwater **Gulf of Mexico**, Côte d'Ivoire, and **Colombia**, where Anadarko recently added to its previous exploration success with another discovery at the Purple Angel prospect.

The company expects to continue advancing the Mozambique LNG project where it has made good progress on the legal and contractual framework, and recently submitted a Development Plan to the Government of **Mozambique** for the Golfinho/Atum discoveries.

## **CONFERENCE CALL TOMORROW AT 8 A.M. CST, 9 A.M. EST**

Anadarko will host a conference call on Wednesday, March 8, 2017, at 8 a.m. Central Standard Time (9 a.m. Eastern Standard Time) to discuss its initial 2017 capital program and guidance. The dial-in number is 877.883.0383 in the U.S. or 412.902.6506 internationally. The confirmation number is 4377341. To access the [live audio webcast](#) and related presentation materials, please visit the investor relations section of the company's website at [www.anadarko.com](http://www.anadarko.com). A replay of the conference call will also be available on the website for approximately 30 days following the call.

## **INVESTOR BOOK**

Anadarko's updated Investor Book is available on the company's website at <http://investors.anadarko.com/investor-kit>.

Four pages of supplemental materials including the company's initial 2017 guidance, updated hedging positions and a reconciliation of same-store-sales volumes are provided in the tables attached to this release.

(1) Does not include capital investments made by Western Gas Partners, LP (NYSE: WES).

(2) See the accompanying table for a reconciliation of same-store-sales volumes, which reflects both divestitures and acquisitions.
